**Subject:** Concurrence on Transportation Waiver for Winter Storm

Dear Members of the Council of State:

Governor Cooper will be issuing a state of emergency for the major power outages that have occurred on Hatteras Island in Dare County and Ocracoke Island in Hyde County because of damage to a major transmission line this morning before day at the Bonner Bridge. According to the NC Electric Membership Corporation (EMC), it is still too early for an estimate on restoration but outages could be for an extended period.

In addition to that Executive Order, he will also issue with that declaration an additional Executive Order, which would suspend certain motor vehicle regulations dealing with the size and weight of vehicles transporting supplies and equipment used for the restoration of utility services. This order is necessary because the EMC has contracted to move generators from Florida to NC to assist with the temporary restoration of power in the emergency zone. By concurring with this action, it will allow the vehicles carrying the generators to move quickly through the weigh stations to get around and thru North Carolina and will allow for the restoration of power in the impacted area.

We respectfully ask that you concur in this action. Please email me back that you do so as soon as possible. Thank you. If you have any question feel free to call me at 919-219-4534.

Best,  
Will Polk

Good morning Jennell,

Yes thank you and Greg Mcleod told me the same as he was getting her signature. Hope you are doing well and please give my congratulations and regards to the Secretary on her recent marriage.

Best,  
Will

Hi Will,

I am guessing you folks got the Secretary's concurrence last night when she attested the Governor's signature on the EO's?

Best, Jennell

Dear Members of the Council of State:

Governor Cooper will be issuing a state of emergency for the major power outages that have occurred on Hatteras Island in Dare County and Ocracoke Island in Hyde County because of damage to a major transmission line this morning before day at the Bonner Bridge. According to the NC Electric Membership Corporation (EMC), it is still too early for an estimate on restoration but outages could be for an extended period.

In addition to that Executive Order, he will also issue with that declaration an additional Executive Order, which would suspend certain motor vehicle regulations dealing with the size and weight of vehicles transporting supplies and equipment used for the restoration of utility services. This order is necessary because the EMC has contracted to move generators from Florida to NC to assist with the

temporary restoration of power in the emergency zone. By concurring with this action, it will allow the vehicles carrying the generators to move quickly through the weigh stations to get around and thru North Carolina and will allow for the restoration of power in the impacted area.

We respectfully ask that you concur in this action. Please email be back that you do so as soon as possible. Thank you. If you have any question feel free to call me at 919-219-4534.

Best,  
Will Polk
